Future Wonder is an IT Consultancy specializing in UX / UI design, software development and architecture, testing, cloud infrastructure, vendor management, fintech and more. We work with informed IT clients as well as those who need coaching through application development to support their businesses. Our clients include finance companies worldwide, cutting-edge Indiana software startups and other established businesses.

Job Description

We are hiring a **Development Operations Engineer** to work alongside our growing development team. You will use foundational approaches to build and extend application stacks in the cloud for our clients. We will consider part-time or full-time commitments. The work will be paid at an hourly rate and includes a Bloomington Dimension Mill membership for local engineers.

Education

A Bachelor's degree is recommended; we will consider Associates degrees, bootcamp training and demonstrated experience too!

Requirements

- 3+ years' experience with provisioning and managing virtual servers, networking devices and other services in platforms like AWS and Digital Ocean
- 3+ years' networking experience with layer 2 (e.g. Ethernet) and layer 3 (e.g. TCP/UDP/IP) protocols
- 3+ years' experience with configuring Linux distributions and using command line tools
- Experience collaborating with development staff: setting up new services, troubleshooting problems, solving server stability and performance issues
- Comfortable digging through application logs and packet captures
- Good communicator with a proactive approach to documenting issues and repeatable processes
- Authorization to work in the U.S with at least 2 solid references

Desirable to have

- Experience working with docker / docker-compose
- Experience purchasing, installing and managing servers and networking equipment in data centers, e.g. rack servers, switches / routers, NAS devices
- Experience supporting developers in the software development cycle using version control, continuous integration (e.g. Github actions, Jenkins) and automated testing
- A fun-loving attitude when it comes to development and teamwork!

Location

We are located in Bloomington, Indiana at The Mill www.dimensionmill.org. We will consider a remote working setup for a candidate with excellent communication skills and a solid work ethic.

To Apply

Please apply with a cover letter and resume to jobs@futurewonder.com.
